Forecast for Friday 24 Dec 2021

Weather: Quite a bright start on Christmas Eve and mainly dry for much of the morning, although becoming increasingly cloudy. Rain spreading in from the west by lunchtime leading to a rather wet afternoon. Rain clearing east by dusk with mist and fog likely to form in the evening.

Chance of cloud free mountain/hill tops above 600m: 70%, scattered low cloud in the morning becoming more broken during the afternoon and evening, so reducing to 30% by lunchtime.

Visibility: Good or very good in the morning out with patches of mist and fog. Some good views available for early walkers. Cloud increasing during the morning and cloud bases lowering to 400m by lunchtime. Low cloud becoming extensive around the hills and visibility under the cloud poor in rain by mid-afternoon.
